

## Storm Data and Unusual Weather Phenomena - December 2009

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>ARKANSAS, Central and North Central</b>				
<b>WOODRUFF COUNTY --- 0.5 S NEW AUGUSTA [35.26, -91.35], 0.4 S RUFFWOOD [35.26, -91.37], AUGUSTA [35.28, -91.37], 0.5 NNW AUGUSTA [35.29, -91.37], 0.9 NW AUGUSTA [35.29, -91.38], 1.8 WNW AUGUSTA [35.29, -91.40], 1.8 NW AUGUSTA [35.30, -91.39], 1.4 N AUGUSTA [35.30, -91.37]</b>				
	12/03/09 17:00 CST		50K	Flood (due to Heavy Rain)
	12/31/09 23:59 CST		50K	Source: River/Stream Gage
Heavy rainfall in early December, combined with planned reservoir releases, caused the White River at Augusta to rise above flood stage on the 3rd. This river remained above flood stage through the rest of December and into January, aided by additional very heavy rainfall on the 23rd and 24th. Thousands of acres of cropland and several rural roads became inundated due to the high water.				
<b>WOODRUFF COUNTY --- 1.8 SE GOODRICH [35.31, -91.21], GRAYS [35.22, -91.23], 1.8 WNW WIVILLE [35.16, -91.26], 2.2 NE GREGORY [35.17, -91.30], REVEL [35.23, -91.28], 2.1 NNE NEW SALEM [35.31, -91.27]</b>				
	12/06/09 17:30 CST		10K	Flood (due to Heavy Rain)
	12/21/09 14:00 CST		25K	Source: River/Stream Gage
Additional heavy rainfall at the beginning of December caused the Cache River at Patterson to again rise above flood stage during the afternoon of the 6th. The river remained above flood stage for two weeks before falling below flood stage on the afternoon of the 21st. This caused pasture and cropland along the river to become inundated once again.				
<b>MONROE COUNTY --- 3.1 SW NINETY POINT [34.75, -91.34], 2.7 ENE ROE [34.65, -91.34], 2.1 S CLARENDON [34.65, -91.30], 1.6 SSE NINETY POINT [34.76, -91.29]</b>				
	12/08/09 16:30 CST		25K	Flood (due to Heavy Rain)
	12/31/09 23:59 CST		25K	Source: River/Stream Gage
Heavy rainfall in early December, combined with planned reservoir releases, caused the White River at Clarendon to rise above flood stage on the 8th and 9th. This river remained above flood stage at this location through the rest of December and into January, aided by additional very heavy rainfall on the 23rd and 24th. Thousands of acres of cropland and several rural roads became inundated due to the high water.				
Well above normal rainfall from previous months, combined with additional heavy rainfall in early December and planned reservoir releases, caused the White and Cache rivers to rise above flood stage during the first part of the month. These rivers then remained above flood stage through the rest of December and into January, aided by additional very heavy rainfall on the 23rd and 24th. Thousands of acres of cropland and several rural roads became inundated due to the high water, causing additional damage to crops and roads.				
<b>DALLAS COUNTY --- FORDYCE [33.82, -92.42]</b>				
	12/23/09 00:00 CST		0	Heavy Rain
	12/23/09 23:59 CST		0	Source: COOP Observer
Rain that fell on December 23rd assured that 2009 would be the wettest year ever recorded in Fordyce. Total rainfall for the year was 81.72 inches, breaking the record of 75.50 inches set in 1945.				
<b>OUACHITA COUNTY --- CAMDEN [33.58, -92.83]</b>				
	12/23/09 00:00 CST		0	Heavy Rain
	12/23/09 23:59 CST		0	Source: COOP Observer
Rain that fell on December 23rd assured that 2009 would be the wettest year ever recorded in Camden. Total rainfall for the year was 82.11 inches, breaking the record of 76.25 inches set in 1957.				
<b>PULASKI COUNTY --- (LIT)LITTLE ROCK ADA [34.73, -92.23]</b>				
	12/23/09 00:00 CST		0	Heavy Rain
	12/23/09 23:59 CST		0	Source: ASOS
A record rainfall for the date occurred when 4.60 inches of rain fell. More importantly, the rain that fell on the 23rd assured that 2009 would be the wettest year ever recorded in Little Rock. Total rainfall for the year was 81.79 inches, breaking the record of 75.54 inches set in 1882.				
<b>(AR-Z003) BOONE, (AR-Z031) CONWAY</b>

<b>PULASKI COUNTY --- 1.7 ENE CROSSROADS [34.89, -92.60], 1.7 N MAUMELLE [34.89, -92.40], 2.5 NNE TONEYVILLE [34.93, -92.09], 3.2 NE ROTTAKEN [34.60, -92.15], 0.6 ENE TERRYTOWN [34.65, -92.42]</b>				

## Storm Data and Unusual Weather Phenomena - December 2009

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	12/23/09 19:45 CST		7.20M	Flash Flood (due to Heavy Rain)
	12/24/09 03:15 CST		0	Source: Emergency Manager

Excessive rainfall on the 23rd caused widespread flash flooding. Numerous county roads were flooded, and many rescues were necessary.

---

<b>CLARK COUNTY --- 0.6 WSW AMITY [34.27, -93.46], 4.8 NNE DEGRAY [34.24, -93.11], 1.3 W ARKADELPHIA [34.12, -93.09], 0.6 SW JOAN [34.11, -92.94], 1.3 SSE VADEN [33.85, -92.92], 0.8 SW WHELEN SPGS [33.82, -93.13], 3.3 SW BRITTS [33.87, -93.27]</b>				
	12/23/09 20:00 CST		1.25M	Flash Flood (due to Heavy Rain)
	12/24/09 06:30 CST		0	Source: Emergency Manager

Widespread heavy rain resulted in the development of flash flooding. Numerous county roads were flooded, as were streets in Arkadelphia. Garner Mountain Road was washed out. Arkansas Highway 53 northwest of Gurdon was partially blocked on the evening of the 23rd. By the wee hours of the 24th, Arkansas Highways 7 and 8 were blocked east of Arkadelphia due to water over the road. Arkansas Highway 128 was blocked as well. Arkansas Highway 26 was barricaded.

---

<b>GARLAND COUNTY --- 1.1 WNW GLADSTONE [34.74, -93.30], 3.6 NNW BEAUDRY [34.77, -93.01], 1.1 N FOUNTAIN LAKE (INCORPORATED) [34.63, -92.92], 1.1 N LONSDALE [34.56, -92.81], 2.0 ENE LAKE HAMILTON [34.43, -93.07], 1.8 WSW PEARCY [34.42, -93.31]</b>				
	12/23/09 21:00 CST		1.25K	Flash Flood (due to Heavy Rain)
	12/24/09 03:15 CST		0	Source: Emergency Manager

Widespread heavy rain led to the development of flash flooding on the evening of the 23rd.

---

<b>SALINE COUNTY --- 20.0 NW OWENSVILLE [34.82, -93.07], 8.0 NE PARON [34.85, -92.65], BRYANT [34.60, -92.48], TRASKWOOD [34.45, -92.65]</b>				
	12/23/09 21:00 CST		2M	Flash Flood (due to Heavy Rain)
	12/24/09 03:15 CST		0	Source: Emergency Manager

Widespread heavy rain on the evening of the 23rd led to the development of flash flooding. Numerous county roads were blocked due to flooding. One subdivision in Haskell was flooded.

---

<b>WOODRUFF COUNTY --- 1.8 SE GOODRICH [35.31, -91.21], GRAYS [35.22, -91.23], 1.8 WNW WIVILLE [35.16, -91.26], 2.2 NE GREGORY [35.17, -91.30], REVEL [35.23, -91.28], 2.1 NNE NEW SALEM [35.31, -91.27]</b>				
	12/23/09 22:00 CST		10K	Flood (due to Heavy Rain)
	12/31/09 23:59 CST		25K	Source: Official NWS Observations

Heavy rainfall on the 23rd and 24th caused the Cache River near Patterson to rise once again above flood stage. The river remained above flood stage into January.

---

<b>HOT SPRING COUNTY --- BUTTERFIELD [34.42, -92.80], LONO [34.20, -92.70], FRIENDSHIP [34.22, -93.00], MARCUS [34.30, -93.20], BONNERDALE [34.38, -93.38], OAK GROVE [34.35, -92.90], JONES MILL [34.43, -92.88]</b>				
	12/23/09 22:30 CST		0.25M	Flash Flood (due to Heavy Rain)
	12/24/09 06:30 CST		0	Source: Emergency Manager

Heavy rain led to the development of flash flooding on the evening of the 23rd. Numerous county roads were flooded. One swift water rescue was necessary in Malvern. One lane of Arkansas Highway 7 was partially blocked at the intersection with Arkansas Highway 84.

---

<b>PRAIRIE COUNTY --- 2.1 NNE DES ARC [35.00, -91.49], 2.8 SSW ERWIN [34.93, -91.44], 0.9 NE LETCHWORTH [34.93, -91.49], 2.4 SSE ENARC [35.00, -91.53]</b>				
	12/23/09 22:30 CST		10K	Flood (due to Heavy Rain)
	12/31/09 23:59 CST		25K	Source: River/Stream Gage

Heavy rainfall on the 23rd and 24th caused the White River at Des Arc to rise above flood stage the evening of the 23rd. The river remained above flood stage into January.

---

<b>HOT SPRING COUNTY --- 1.2 SSE MAGNET COVE [34.43, -92.82], 1.2 WSW ROCKPORT [34.37, -92.84], 1.4 E MIDWAY [34.25, -92.93], 1.7 N MIDWAY [34.27, -92.95], 1.1 SSW JONES MILL [34.42, -92.89], 0.6 N JONES MILL [34.44, -92.88]</b>				
	12/23/09 23:15 CST		25K	Flash Flood (due to Planned Dam Release)
	12/24/09 08:00 CST		10K	Source: Newspaper

Flash flooding occurred on the Ouachita River when releases from Rammel Dam were necessary. The flow from the dam reached approximately 67,700 cubic feet per second.

---

<b>CONWAY COUNTY --- MORRILTON [35.15, -92.75]</b>

Flash flooding, which developed early on the morning of the 24th, became widespread areal flooding later in the morning on the 24th and continued for several days. Arkansas Highway 89 was closed near Furlow. Fire departments used boats to rescue five residents on Grayhawk Circle, where water was about 5 feet deep on Christmas Eve morning. Along Arkansas Highway 236 West, water was 4 to 5 feet deep on the road and even deeper in the houses. The South Bend Fire Department responded to 38 calls for rescues from vehicles trapped in high water, and assisted six families who needed to leave flooded homes. One motorist suffered hypothermia before he was rescued from his car. Problem areas included Graham Road, Kerr Station Road, South Kerr Road, Gentry Lane, Rifle Lane, and Shotgun Lane. Arkansas Highway 31 was flooded from Beebe to Lonoke. U.S. Highway 70 was closed by flooding between Carlisle and Lonoke. In Carlisle, part of City Hall flooded. In Lonoke, a number of homes and the city shop were flooded. County roads throughout the county were damaged.

A small levee broke, allowing water to spill out of a private lake. Lawson Road was flooded. The water cut through Ranch Road, cutting off access to three houses.				
<b>CLEVELAND COUNTY --- 1.7 NNW CHOWAN [33.94, -92.23], 3.0 W HERBINE [33.82, -92.08], 1.4 NW RYE [33.74, -92.00], 3.7 WSW RYE [33.71, -92.04], 5.2 E ORLANDO [33.71, -92.08], 2.7 NW SALINE [33.91, -92.28]</b>				
	12/27/09 13:00 CST		0.25M	Flood (due to Heavy Rain)
	12/31/09 23:59 CST		0	Source: Newspaper

Rising river waters swept a truck and several pieces of machinery parked near Pool access point along U.S. Highway 79 into the Saline River between Kingsland and Rison. The equipment had been used to make repairs to a nearby railroad crossing over the river.

A strong but slow-moving low pressure system began its approach to Arkansas on the 23rd. Ahead of this low, unseasonably large amounts of moisture were drawn northward from the Gulf of Mexico. The approach of the low set off heavy rain and thunderstorms on the 23rd and 24th. Rainfall amounts of 3 to 6 inches were common for the two-day period. In a broad swath from southwest Arkansas through the central part of the state into northeast Arkansas, many places picked up 7 to 10 inches of rain. Flash flooding resulted initially, followed by areal flooding and river flooding. After the low passed by, colder air spilled into Arkansas. Light snow fell across parts of northern and western Arkansas from late on the 24th into the early morning hours of Christmas Day. Most snowfall amounts were in the 1/2 to 1 inch range, with spotty totals up to 2 inches. Though the amounts were rather small, hazardous driving conditions resulted.
